

iRacing – Join League Race

For the races in the Valluga Esports League you will be required to join our iRacing league. We will manually be processing driver registrations and managing the league.

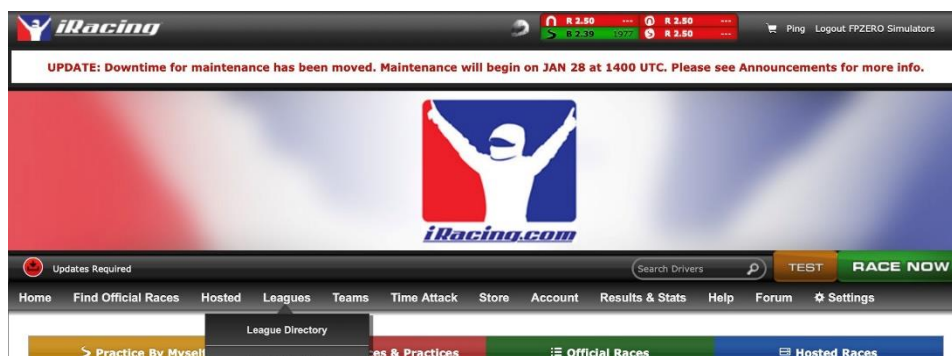

Joining the league is simple and possible via the iRacing Members Site or iRacing UI.

iRacing Members site

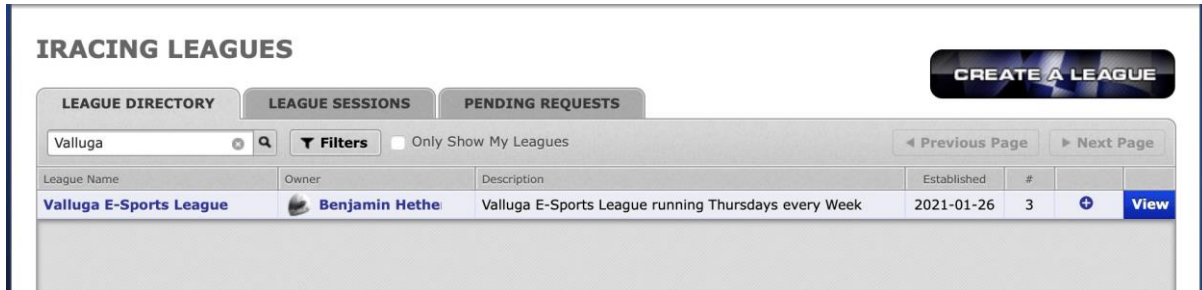

Using the icon on your desktop you can launch the iRacing Members Site in your preferred web browser. Alternatively, you can visit the members website via <https://members.iracing.com>. We find the Chrome and Microsoft Edge web browsers work reliably.

Once loaded, click on the “Go Racing” icon. Followed by clicking on the “Leagues” and “Leagues Directory”

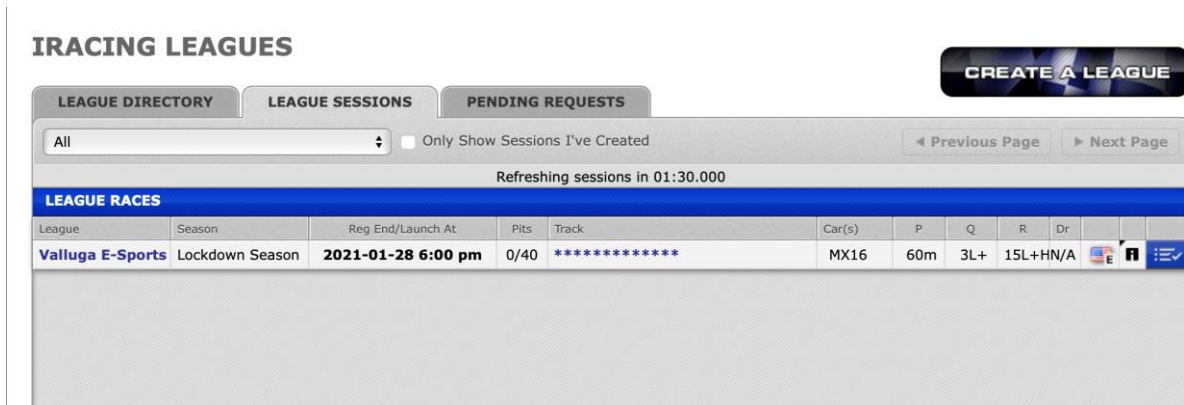

You'll now see an extensive list of Leagues. Using the search box, search for "Valluga" and the "Valluga E-Sports League" will be visible. You may need to click the blue "Apply" button to request access. When you been accepted, just click "View" as shown below.

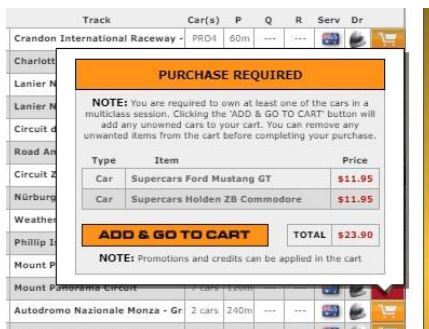

When you're viewing the league page, you can see the results, session schedule, announcements and much more!

When you're ready to join the session, head to the "League Sessions" to see the upcoming race(s). On the build up you will see the blue icon which when you hover over, you can see the scheduled time. When the session is ready to launch, it will light up green and you can join the session.

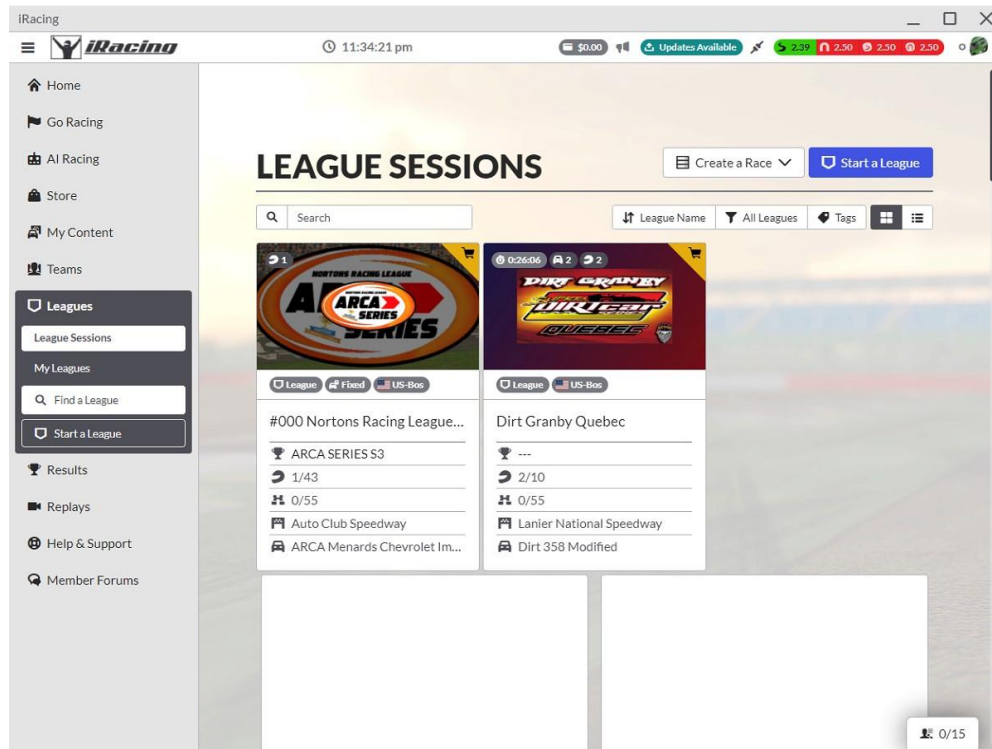

If the join icon is orange, you will need to purchase the content in order to race. Click "Add & Go To Cart" to purchase the items.

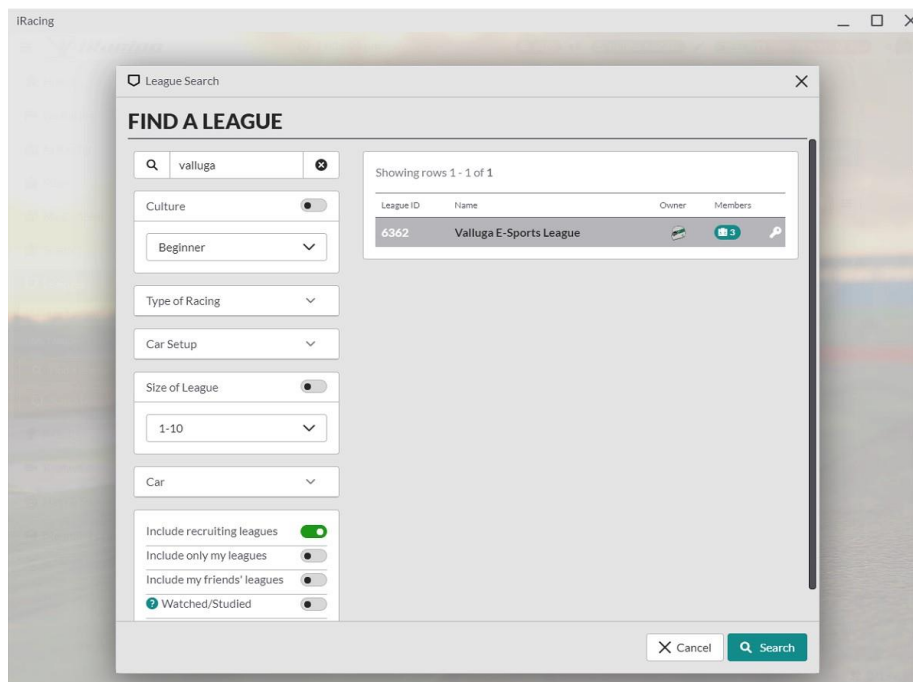

[see guide on adding content for more information]

iRacing UI

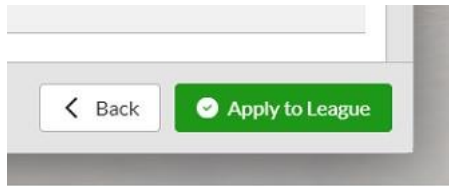

The iRacing UI is a fantastic way to manage your racing and practice in iRacing. Once launched you'll be greeted with the dashboard. Click the "Leagues" item from within the 'hamburger' menu at the top left.

When you click "Find a League" you will then be able to search for the Valluga E-Sports League using the search option. Click on the name to take you in further.

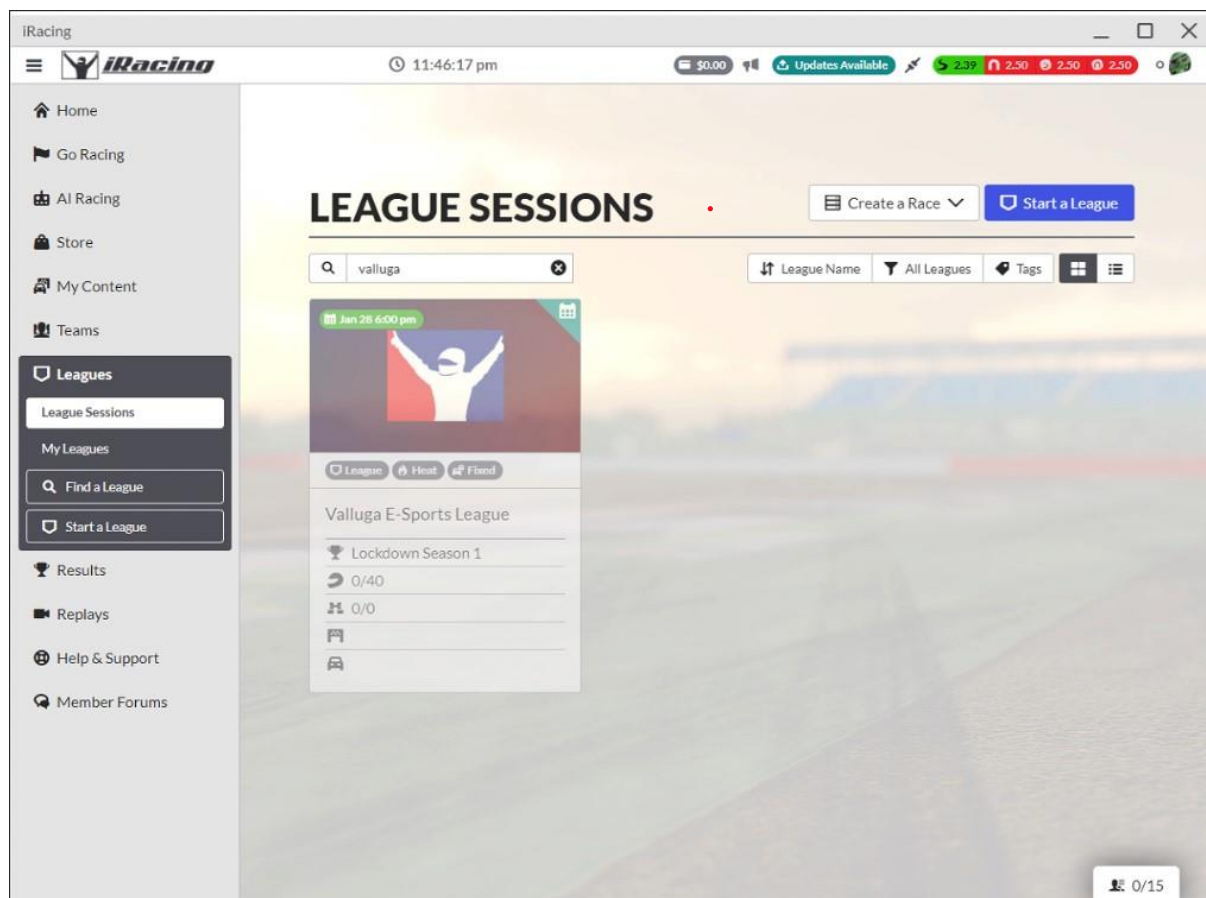

You may need to click the green “Apply to League” button to request access when viewing the league. Once accepted, clicking on the league will take you straight to the league page.

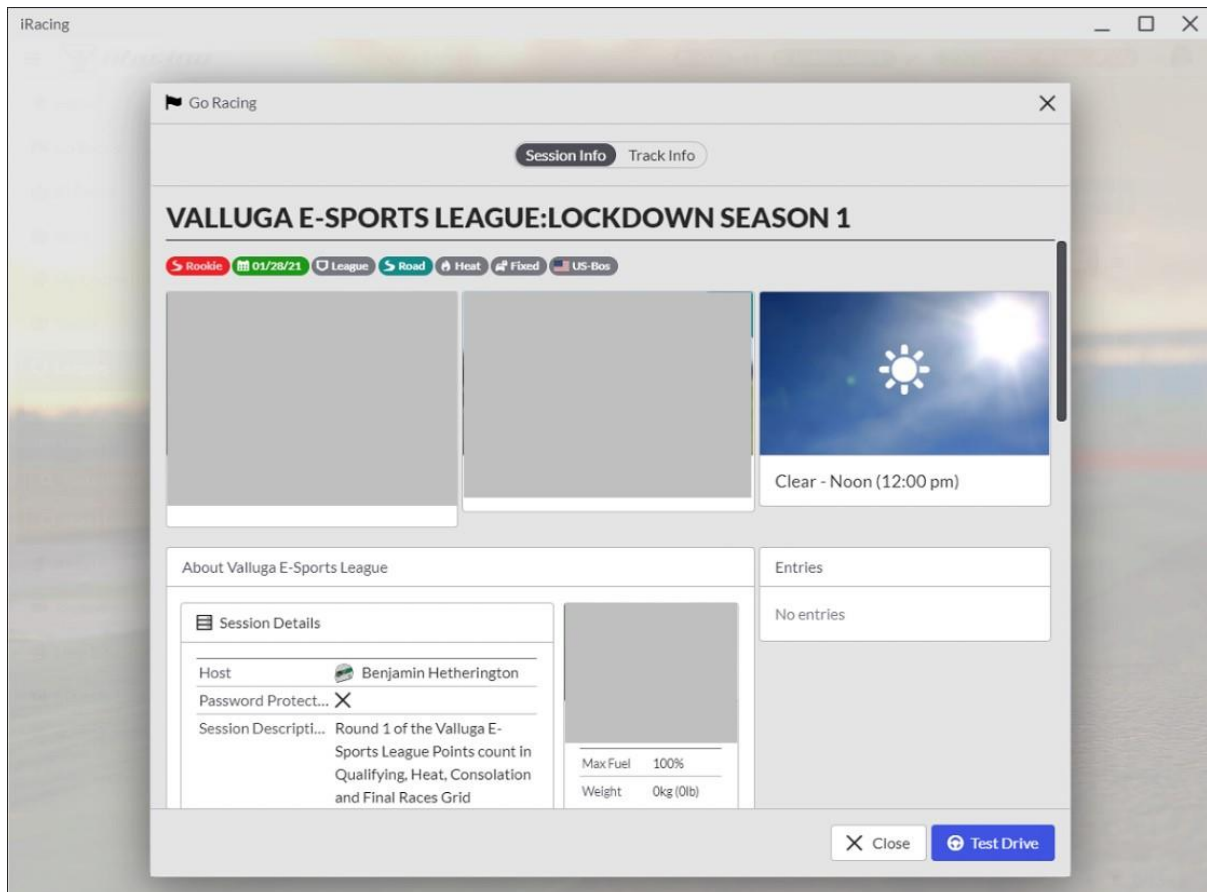

When you're on the league page, you can see the results, session schedule, announcements and much more!

The league can be accessed any time under “My Leagues” in the navigation.

When you're ready to join the session, head to the “League Sessions” to see the upcoming race(s). On the build up you will see the blue icon which when you hover over, you can see the scheduled time. When the session is ready to launch, it will light up green and you can join the session.

Clicking on the session tile will bring up more information about the car and track combination. Before the race starts, you can run the "Test Drive" mode to practice on the track before the race. This will change to a green "Drive" button when you're ready. If you are missing content you will be asked to purchase the content. Clicking "Purchase" fast tracks the process taking you straight to the shopping cart.
