"The team was faultless again this weekend giving me another two podiums" - Lucky Khera

We headed off to Donington Park for the penultimate round of the Porsche Carrera Cup GB season.

With a slightly different format Thursday's free practice saw dry conditions ready for the two practice sessions of the day.

The free practice sessions saw Ian Humphris Porsche Sprint Challenge 2021 winner hit the track for the first time alongside Ross Wylie and Lucky Khera.

Saturday was qualifying day with all 3 cars back out to see where they could qualify for race 1 the following day.

Qualifying gave the team some great results with Ross qualifying P7 in the Pro category, Lucky P5 and Ian making a great start to his debut Carrera Cup weekend qualifying P2.

Sunday was race day with two races in the pipeline which was set to be an exciting day for all three drivers.

Ross went on to improve his P7 starting position in race 1 to finish P6 and in the Am category Lucky P3 and Ian P6.

Race 2 was later that day and in cloudy but dry conditions it was time for the final race of the weekend.

Ross finished P7 in the Pro category and an unfortunate DNF for Ian in the Am Category. Lucky came through again to finish P2 gaining his second podium of the weekend for team Valluga.

When speaking to Lucky about how his time with Valluga is going he said,

"The team was faultless again this weekend giving me another two podiums and the confidence to push in both races.

I feel confident in the team also who have made me feel welcome and have given me great feedback and data to keep pushing".

Next up is Brands Hatch in just a couple of weeks for the final round of Porsche Carrera Cup GB 2021.
